

**Job Title:**  
***Senior Interior Designer***

**Job Purpose:**

To join the interior design team, leading both the creative and detailed design of 3D projects coming into the studio.

**Opportunity:**

An exciting new role has opened up to join our creative team. Reporting to the Design Director, the ideal candidate will have 8+ years of working experience working on Place and Space projects within the Retail and Leisure Destinations sector. This is a client facing role so we will only consider applicants that can attend regular in person meetings within the UK.

You will be comfortable taking briefs and working with the team to create concepts, confidently visualising them to a high standard and applying them throughout spaces with thought and consideration to the wider brand strategy & customer experience. At Beyond, we work with a proactive attitude, with each team member pitching in to support others who are under pressure – no job is above or beneath anyone. We are looking for someone with a friendly, positive personality, who is always keen to get involved and contribute to a great work environment and nurture more junior designs where required.

The structure of our agency allows us to fast-track the right people into key roles, through a combination of hard work and access to relevant training, so this role would really suit someone who is looking to grow and build a successful team and career.

**Key responsibilities**

- To support the Design Director and team in the creation of thoughtful and considered designs
- Lead client relationships alongside the Client Service team to ensure best in class service is delivered on each and every project
- Understanding the strategic goals of a client and project, deliver against those goals and spotting new business opportunities that might arise
- Preparing thorough presentations including visuals, design intent & detailed drawings
- Meeting with construction professionals to discuss designs & attending site as 3D Lead
- Creating detailed design intent drawings and specifications for Tender & Construction
- Specifying finishes & materials
- Working with Cinema4D &/or Vectorworks to produce drawing packs

- Working with C4D & CC suite to produce visuals to demonstrate the concept & design intent
- To attend site to carryout surveys and partake in project team meetings

**Skills and Qualifications:**

- Degree in Interior design/architecture
- Strong C4D visualising skills
- Strong Vectorworks skills
- 8+ year's experience working in industry and on retail (including shopping centres), leisure, F&B and/or hospitality projects
- Accurate with attention to detail

**Location:** Hammersmith (1-2 days a week in the office – more if you prefer), must be UK based.
